MEMORANDUM FOR THE RECORD

SUBJECT: Notes from Discussion with [REDACTED]
23 February 1977

25X1

1. Control of National versus Tactical Intelligence.

a. Can't we give somebody like the Sixth Fleet Commander some actual control over the satellite? Can we not show him that we share "national" assets with the tacticians.

b. It is nonsense that the DCI should not be involved in tactical intelligence systems. There is a definite trade-off between things like RF-4's and satellites.

c. Your plan for liaison with the Cabinet officers is good but you need somebody on site weekly or committee type operations won't really do the trick.
